

COLISTIN - 80

Oral Solution

COMPOSITION: Each ml contains:

Colistin Sulphate

800,000 I.U.

PROPERTIES:

- Colistin (Polymyxin group) is very active against Gm –ve bacteria:
E.coli, Salmonella, Pasteurella, Pseudomonas, Shigella, Haemophilus gallinaram, Klebsiella, Bordetella, Clostridia etc...
- Due to its poor and slow absorption from the intestine, its effect is locally concentrated, thus it shows a remarkable effectiveness against enteric infections.
- It induces permeability changes within the bacterial cell which result in its death.

INDICATIONS:

Prevention and treatment of different bacterial diseases of poultry, calves, lambs, kids and rabbits :

Colibacillosis, Salmonellosis, Pasteurellosis, diarrhea, enteritis etc.....

DOSAGE: (Duration for 3-5 days).

■ **Treatment:**

- * **Poultry:** 100 ml per 200 litres of drinking water.
- * **Calves, Lambs:** 1.5 ml per 10 kg B. wt. daily and orally with drinking water.
