

# **ENTERCOL**

## **Water Soluble Powder**

**COMPOSITION:** Each gm contains:

Ampicillin trihydrate	200	mg
Colistin sulphate	800,000	I.U.

### **PROPERTIES:**

- Ampicillin is a broad spectrum antibiotic against Gm+ve and Gm-ve bacteria.
- Colistin is a very active antibiotic against Gm-ve bacteria; and due to its slow and poor absorption from intestine, it concentrates its antibacterial action locally, and thus shows an outstanding effect against the enteric infections.
- The combination of both antibiotics results in a strong antibacterial action which enhances the efficacy against the enteric pathogens as well.

### **INDICATIONS:**

#### ■ **Poultry, Game-birds:**

- Colibacillosis, CRD, Sinusitis, Clostridial infection, Coryza, Salmonellosis, Omphalitis and yolk sac infection, Pasteurellosis, Spirochaetosis, Staphylococcal arthritis.
- Stress conditions due to vaccination, debeaking, transporting, rehousing, changes of feed and weather.

#### ■ **Lambs, Kids, Calves:**

- Bacterial enteritis, Scour, Septicaemia, Pasteurellosis, Foot-rot, infections of respiratory and uro-genital tracts.
- Preventive therapy against early mortality of the newly-born and young animals.

### **DOSAGE:**

#### ■ **Treatment:**

- **Poultry, Game-birds:** 100 gm per 200 litres of drinking water for 3-5 days.
- **Lambs, Kids, Calves:** 1-2 gm per 10 kg B.wt. daily and orally with water for 3-5 days.

- **Prevention:** Half dosage for the same period.

**SAFETY PERIOD:** For meat consumption: 7 days.

For eggs consumption: 3 weeks

#### ■ **Remarks:**

- During treatment, eggs are not used for human consumption.
- Not used for table – eggs layers
- Not used for rabbits.

**STORAGE:** Keep in dry, dark place below 30 °C.

**PACKING:** (100, 250, 500, 1000) GM.
