

TILMIVAP 25%

Oral Solution

COMPOSITION: Each ml contains:

Tilmicosin (Activity) 250 mg

PROPERTIES:

- Tilmicosin is a broad spectrum antibiotic belongs to the macrolide group. It is effective primarily against Gm +ve bacteria and certain Gm -ve bacteria: Haemophilus gallinarum, Actinobacillus pleuro-pneumonia, Ornithobacterium rhinotracheal (ORT), Pasturella (with an enhanced activity against P. multocida and P. haemolytica).
- Besides; it is active against Mycoplasma (gallinarum & synorviae).
- Due to its quick reachable and prolonged accumulation in the respiratory tract tissues, it shows a remarkable efficacy against respiratory tract infections.
- Persists at significant levels in pulmonary tract and air sacs for about (48) hours following application, which leads to an extended protection.

INDICATIONS:
