

CAMELOVIT RACING

Powder

Highly concentrated vitamins and minerals for racing camels to exert extra power performance.

COMPOSITION: Each gm contains:

Vitamin A	1,000	I.U.	Choline chloride	12	mg
Vitamin D3	400	I.U.	L-Lysine-HCl	15	mg
Vitamin E	30	I.U.	DL-Methionine	50	mg
Vitamin K3	0.10	mg	Ferrous sulphate	6	mg
Vitamin B1	1	mg	Zinc sulphate	6	mg
Vitamin B2	1.20	mg	Copper sulphate	1.50	mg
Vitamin B6	0.60	mg	Manganese sulphate	3.50	mg
Vitamin B12	2.40	mcg	Cobalt chloride	0.10	mg
Nicotinic Acid	5	mg	Potassium iodide	0.10	mg
Ca-D-pantothenate	1	mg			
Folic acid	0.30	mg			
Biotin	0.1	mg			

PROPERTIES:

Camelovit supplies a good balance of vitamins A & E with Lysine which are so important to the entire cell-respiratory system, to the protein metabolism and to prevent "tying up" (Azoturia or paralytic haemoglobinuria). Also, due to the generous source of B-complex vitamins, it prevents acidosis caused by severe stress and thus speeds up recovery.

ADVANTAGES:

- Promotes better utilization of valuable proteins in the daily ration.
- Improves rebuilding of red blood corpuscles.
- Ensures peak performance when racing pressure is on.
- Speeds recovery between races.
- Has specific ability to prevent (tying up).
- Guards against pre-race flightiness.
- Contains high levels of vitamin A and E in perfect balance, thus strengthens the body.
- Decreases susceptibility to different infections.

DOSAGE: Given daily with feed.

	Daily ration
Off-spring camels	
• From birth – 2 months.	12 gm
• 2 months – weaning.	20 gm
• Weaning to yearling stage.	25- 50 gm
• Yearling – 2 years.	25 gm
• Yearling over spring and early summer period	50 gm
Two years old and older camels	50 gm
• Training preparation.	50 gm
• During racing season.	50 gm

STORAGE: Keep in a dry, dark place below 25 °C.

PACKING: (100, 250, 500, 1000) GM.
