

COLISTIN-80

Water Soluble Powder

COMPOSITION: Each gm contains:

Colistin Sulphate	800,000 I.U	Amino acids	4 mg
Vitamin A	2500 I.U	Vitamin E	1 I.U
Vitamin D3	500 I.U	Vitamin K3	2 mg

PROPERTIES:

- Colistin (Polymyxin group) is very active antibiotic against Gm –ve bacteria; and due to its slow and poor absorption from intestine, it concentrates its antibacterial action locally, and thus shows an outstanding effect against the enteric infections. It induces permeability changes within the bacterial cell which result in its death.
- The vitamins and amino acids contents activate, increase viability and support the body resistance against infections, to maintain optimum health and conversion rate improvement.

INDICATIONS:

Prevention and treatment of different bacterial diseases of poultry, calves, lambs, kids and rabbits. Such as: Diarrhea, enteritis .bacterial infections due to Coli, Salmonella, Pasteurella, Clostridia etc...

DOSAGE: (Duration for 3-5) days.

■ Treatment:

- **Poultry:** 100 gm per 200 litres of drinking water.
- **Calves, Lambs, kids:** 1.5 gm per 10 kg B. wt. daily and orally with water.
(120,000 units colistin / kg B. wt.)
- **Rabbits:** 1 gm per 10 kg B. wt. daily and orally with water.
(75000 units colistin / kg B.wt.)

- **Prevention:** Half dosage for the same period.

SAFETY PERIOD: For meat consumption: 3 days.

STORAGE: Keep in a dry, dark place below 25 °C.

PACKING: (100, 250, 500, 1000) GM.
