

ERYTHROSTINE

Water Soluble Powder

For Poultry

VAPCO
ANTIBACTERIAL

COMPOSITION: Each gm contains:

Erythromycin Thiocyanate	200 mg
Colistin Sulphate	200,000 I.U.

PROPERTIES:

- Erythromycin, a macrolide antibiotic, is safe and highly active against Gm⁺ve and Gm⁻ve bacteria such as: Staph., Strept., Coryne, E.Coli, Pasteurella, Mycoplasma, Pneumococci, Haemophilus, Erysipelothrix etc...
- Colistin is a very active antibiotic which belongs to the polymixin group against Gm⁻ve bacteria; and due to its slow and poor absorption from intestine, it concentrates its antibacterial action locally, and thus shows an outstanding effect against the enteric infections.

INDICATIONS:

- Cases of: CRD, Mycoplasmosis, Chlamydiosis, Coryza, Sinusitis Air Sacculitis, Synovitis, Salmonellosis, Pasteurellosis, Vibronic hepatitis, Colibacillosis, enteritis, diarrhea etc..
- A supportive treatment in cases of respiratory diseases and clostridial infections.
- Stress conditions due to vaccination, debeaking, transporting, rehousing, changes of feed and weather.

DOSAGE:

- **Treatment:** 100 gm per 200 litres of drinking water for 5 days.
- **Prevention:** Half dosage for the same period.

SAFETY PERIOD: For meat and eggs consumption: 7 days.

STORAGE: Keep in dry, dark place below 30 °C.

PACKING: (100, 250, 500, 1000) GM.
