

FLUMEQUINE – 20%

Water Soluble Powder

COMPOSITION: Each gm contains:

Flumequine	200 mg
Vitamin A	10,000 I.U
Vitamin D3	2000 I.U
Vitamin E	5 I.U
Vitamin K3	2 mg
Vitamin C	2 mg

PROPERTIES:

- Flumequine, a bactericidal antibiotic of the quinolone group, exerting its action in the alimentary and respiratory tracts.
- Effective against Gm –ve bacterial (coli, pasteurella, salmonella etc...) and some Gm +ve bacteria (staph, strep).
- Has rapid absorption and diffusion with quick serum level.
- The vitamins content activates, increases viability and supports the body resistance against infections, to maintain optimum health.

INDICATIONS:

- For poultry, lambs, kids, calves, equines and rabbits.
- For prevention and treatment of alimentary and respiratory tracts infections such as: E. coli, Salmonella, Pasteurella, Staph and Strept etc... in poultry, equines, and rabbits.
- It is also used in cases of furunculosis in fishes.

DOSAGE: (Dissolve well 100 gm in 1-2 litres of water then add to the water bulk to be medicated).

■ Treatment:

- **Poultry:** 100 gm per 200 litres of drinking water for 3-5 days.
- **Lambs, Kids, Calves, Equines, Rabbits:** 0.03-0.06 gm per kg B.wt. daily and orally with water for 3-5 days.
(6-12 mg flumequine / kg B.wt.).
- **Fishes:** 12 gm per 100 kg of feed.

- **Prevention:** Half dosage for the same period.

SAFETY PERIOD: For meat and eggs consumption: 3 days.

REMARK: Trimethoprim-sulphonamide and nitrofurans products should not be associated with flumequine treatment.

STORAGE: Keep in a dry, dark place below 25 °C.

PACKING: (100, 250, 500, 1000) GM.
