GLUSAR-20%
HERBICIDE
SOLUBLE CONCENTRATE

Non-selective contact herbicide with some systemic action, translocation occurs only within leaves, predominantly from the leaf base to the leaf tip.

COMPOSITION: Each Liter contains:
GLUFOSINATE AMMONIUM 20% W/V (A.I.)

PROPERTIES:
GLUSAR-20%: A non-volatile herbicide with non-selective activity against many annual and perennial broad-leaved weeds and grasses.
GLUSAR-20%: Visible symptoms of control appear in 3-7 days, but complete desiccation may take 20-30 days under normal conditions.

USES AND APPLICATION RATE:

**Quantity of water used in:**
- Knapsack and Handgun Equipment: Use 500-1000 l.t./ha. Determined to weed density.
- Boom or Directed Sprayer Equipment: Use 300-500 l.t./ha has given good results under normal conditions.

**Donum = 1000 m²**

**SAFETY PERIOD:** Pome And Stone Fruit: 21 days, other crops: ---

**CAUTION:**
Used only on above mentioned crops and follow the recommended safety period before harvest.

**REMARKS:**
- Do not apply by aircraft.
- Do not apply when rain is expected within 6 hours.
- Do not apply to weeds under stress due to, very dry, very wet, frosty or diseased conditions. And the control will be reduced and / or slower under cold conditions.
- Do not apply under hot dry conditions (temperatures above 33° C with a relative humidity below 50%).
- Avoid contact with other crops.
- **GLUSAR-20%** may be used around trees less than two years old provided they are effectively shielded from spray drift. The recommended rate of use is determined by the following criteria: weed species, weed stage of growth, weed density, climatic conditions.
- Complete coverage of weeds is essential for good control.
- Don’t harvest before 8 weeks from treatment.
- Calibration of sprayer is important before application.
- Follow up treatment will be necessary to control re-growth of perennial weeds.
- Apply when weeds are actively grown.

**GRAZING RESTRICTIONS:**
Do not graze or feed animal from treated area for 60 days.

**RE-ENTRY PERIOD:** 24 hours after the last application.

**COMPATIBILITY:**
Compatible with most other herbicides, but it is favorable to make compatibility test before use.
