HERBIFLURIN-48% 
HERBICIDE 
EMULSIFIABLE CONCENTRATE

A selective pre-planting soil-herbicide to control Annual grasses and Board-leaved weeds and used to control weed seeds as they germinate

COMPOSITION: Each Liter contains:

| TRIFLURALIN | 48% W/V (A.I) |

PROPERTIES:
HERBIFLURIN-48%: A selective pre-planting soil-herbicide.
HERBIFLURIN-48%: Has a good efficiency to control annual narrow and broad-leaved weeds.
HERBIFLURIN-48%: Has low toxicity to mammals.
HERBIFLURIN-48%: Has no residual risk on the crop leaves, fruits or seeds, also it has no injury on the second planting crop.

USES AND APPLICATION RATE:
Must be applied and incorporated before planting and emergence and well mixed with soil, Treated soil should be wet or irrigate after the application.
