

HELMINTIN

Oral Suspension
Anthelmintic For Ruminants, Rabbits, Poultry

COMPOSITION: Each ml contains:

Nicosamide (Piperazine Salt) 75 mg

PROPERTIES:

1. The specific and highly effective oral treatment of tape worms (Cestodes) infestation in ruminants, rabbits and poultry.
2. Reliable, safe and well tolerated cestocide; even yearlings, pregnant and debilitated animals can be treated with it.

INDICATIONS:

1. Elimination of different spp. of tape worms (Moniezia, Taenia, Avitellina, Stilesia, Thysanosoma – fringed tape worm – etc...) in sheep, goats and cattle.
2. The immature stages of rumen flukes (Paramphistomum spp.) in cattle, sheep and goats.
3. Tape worms of poultry and rabbits.

DOSAGE: By drenching gun for ruminants.

Shake well before use.

- **Sheep, Goats:** 10-12 ml per 10 kg body wt.
- **Cattle:** 7 ml per 10 kg body wt.
- **Poultry:** 1 - 1.5 litres per 200 litres of drinking water (For 1000 birds of 1 kg wt. each).
- **Rabbits:** 1.3-2 ml per kg body wt.

REMARKS:

- Single treatment is applied, but it can be repeated after 6-8 weeks later, if necessary.
- Mild diarrhea may occur.
- It is preferred to treat the animals after 24 hours of fasting.

SAFETY PERIOD:

- For meat consumption: 7 days.
- For milk consumption: 2 days.

STORAGE: Keep in a dry, dark place below 30 °C

PACKING: (100 ml, 250ml, 500 ml, 1 Lt.)
