

NOFAR-2

**RODENTICIDE
WAX BLOCKS**

VAPCO

Class:
**Coumarin
anticoagulant**

NOFAR-2 is an anticoagulant rodenticide which has show exceptional activity against all rodent species, and can be used in all places where rodents can live.

COMPOSITION: Each kg contains:

BRODIFACOUM

0.005% W/W (A.I)

USAGE AND DOSAGE:

- Placing the blocks correctly is very important, remember that rodents are intelligent, so selection of suitable place is very important.
- Blocks should be placed beside well-defined runs in and around burrows and holes.

GENERAL NOTES:

- To reduce wastage of blocks, no more applications of the blocks should be added within a period of one week.
- All remains and uneaten blocks should be handled with rubber or plastic gloves.
- Dead rodents to be handled with protective gloves and then dusted with an insecticide and collected in bag for burnt.
- Blocks should be placed at locations not accessible to children and domestic animals and it is appreciable to use special boxes to avoid any mistake.
- Avoid mouth contact.
- Always wash hands and exposed skin after application.
