

# VAPCO COLIC

Dispersable Oral Suspension  
Safe And Prompt Cure For Colic In Equines

**COMPOSITION:** Each ml contains:

<b>Light kaolin</b>	<b>187 mg</b>
<b>Paraffin oil</b>	<b>250 mg</b>

**PROPERTIES:**

- Kaolin forms a protective layer and adsorbent coating on the mucous layer of the gastro-intestinal tract which prevent irritation or erosions by harmful substances, and also adsorb the toxic compounds causing colic.
- While paraffin oil acts as laxative, the other components act as carminatives which assist absorption and expulsion of the accumulated gases, which lead to the relax of the intestinal muscular contractions, and thus alleviate the spasmodic colic and flatulence.

**INDICATIONS:**

- For relief cases of colic in horses.
- For treatment constipation in foals, yearlings and nursing mares.

**DOSAGE:** Shake well before use.

- **Adult Horses:** 350-500 ml orally by drenching bottle or by stomach tube.  
Repeat after 30 minutes if necessary (Severe colic).
- **Constipation cases in foals and nursing mares:** Give 30-60 ml daily on dry feed for 5-10 days.

**STORAGE:** Keep in a dry, dark place below 30 °C

**PACKING:** (500, 1000) ml.
