

VITAMIN – B.K. CHOLINE

Water Soluble Powder
For Poultry

COMPOSITION: Each gm contains:

| | | | |
|-------------|--------|-------------------|---------|
| Vitamin B1 | 10 mg | Folic acid | 0.50 mg |
| Vitamin B2 | 2.5 mg | Nicotinic acid | 20 mg |
| Vitamin B6 | 10 mg | Ca-D-Pantothenate | 4 mg |
| Vitamin B12 | 10 mcg | Choline chloride | 50 mg |
| Vitamin K 3 | 10 mg | | |

PROPERTIES:

Choline chloride as a (Methyl-donor) and in addition to vitamin B12, increase the phospholipid metabolism in the liver, beside its lipotropic activity, facilitate the lipoprotein synthesis, and thus preventing fatty changes in the liver and by mobilizing the fat, hence preventing hepatic lipidosis (Fatty liver).

INDICATIONS:

- Cases of vitamins deficiency.
- Cases of perosis (slipped tendon).
- Fatty liver kidney syndrome.
- Stress conditions due to vaccination, debeaking, transporting, rehousing, changes of feed and weather.
- Maintains good performance and increases the production.
- Improvement of feed conversion, productivity, the growth, fertility and hatchability rates, good feathering and flesh development.
- Enhancement of better rearing results.
- Helps in producing high eggs-quality, and bright strong egg-shells.
- Increase of viability and resistance against diseases.
- Effective in cases of caged-layers fatigue.

DOSAGE:

200 gm per 200 litres of drinking water for 3-5 days.

STORAGE: Keep in a dry, dark place below 25 °C.

PACKING: (100, 250, 500, 1000) GM.
