

VIROSEPT

Solution
The Strong Disinfectant And Detergent

COMPOSITION: Each ml contains

Cetrimide	60 mg
Glutaraldehyde	60 mg
Formaldehyde	84 mg

PROPERTIES:

- A powerful combination of 3 effective and synergistic disinfectants.
- It is characterized by strong detergent and disinfecting activity against the bacteria and spores, viruses, fungi, moulds and algae.
- Has a broad spectrum action against all pathogenic micro organisms such as viruses (Avian Influenza, Swine influenza, ND, IB, ILT, IBD etc...).
- Has a long lasting action which prevents recontamination.

APPLICATIONS: (Before spraying, dilute with water 1:200 – 1:400 (0.25 – 0.50%).

- **General disinfection:**
Farm buildings, poultry and animals houses, battery systems.
Leave for 12 hrs. contact.
- **Farm equipment, trucks, vehicles:** Leave for 30 minutes contact.
- **Hatcheries (Incubators, hatchers, equipment, floors):** Leave for 60 minutes contact.
- **Fog device:** Ambient disinfection (1.5 litres virosept + 3 litres water) per 1000 cubic meters volume.
- For area spraying, use 1 litre of the diluted product per 4 sq. meters.

FIRST AID:

- **Eyes:** Flush with water for at least 15 minutes.
- **Skin:** Wash with soap and water.
- **Inhalation:** Remove to fresh air, apply artificial respiration or give oxygen.
- **Ingestion:** Do not induce vomiting and do not give anything to drink.
- **Get medical attention when necessary.**
- **Antidote:** Not specific, treat according to symptoms.

PRECAUTIONS:

- Avoid contact with eyes, mouth, skin and inhalation.
- Do not pollute ponds, water sources and canals.
- Before application, wear protective clothes, gloves, boots, goggles.
- Do not eat, drink or smoke during spraying.
- Wash containers with water before discarding.

STORAGE: Keep in a dry, dark place at below 30 °C.
Keep away from children, food and drinks.

PACKING: (100, 250, 500, 1000) ml. & 5 litres gallon.
