

# SULPHAGUANIDINE(B.P)

Water Soluble Powder

For Lambs, Kids, Calves, Foals, Rabbits, Dogs and Cats.

## PROPERTIES:

As sulphaguanidine is poorly absorbed from the intestine, so it is indicated in local enteric infections of bacterial origin.

## INDICATIONS:

- Given to **lambs, kids, calves, foals, rabbits, dogs and cats.**
- For the treatment of bacterial enteric infections such as: E.coli, Strept, Proteus etc...
- Recommended in cases of bacillary dysentery.
- It is of value in refractory cases of amoebic dysentery by controlling secondary bacterial infections.
- In dogs and cats, it is useful in bowel infections, which occur as primary conditions or as secondary to viral diseases such as distemper.
- For treatment of different cases of diarrhea.

## DOSAGE:

For different animals: 0.1 – 0.3 gm per kg B.wt. daily, and orally with water or milk for 3 days.

**SAFETY PERIOD:** For meat consumption: 4 days.

**STORAGE:** Keep in a dry, dark place below 30 °C.

**PACKING:** (100, 250, 500, 1000) GM.
