

SULFAMYCIN – SK

Water Dispersible Powder
For Cattle, Sheep, Goats

COMPOSITION: Each GM contains:

- Neomycin sulphate16.65 mg
- Sulphaguanidine 50 mg
- Sulphadimidine –Na..... 50 mg
- Sulfamethoxazole.....50 mg
- Vitamin B 22 mg
- Nicotinic acid.....16.65 mg
- Kaolin.....100 mg
- Pectin 5 mg

PROPERTIES:

- Neomycin, a broad – spectrum antibiotic against GM –VE bacteria; and due to its poor Absorption from the intestine, its action is locally concentrated against the enteric infections.
- The triple Sulfonamides contents play a valuable role, as Anti-bacterial agents against GM +VE and GM –VE pathogens, for the treatment of the local and systemic bacterial infections.
- Kaolin and pectin form a protective and adsorbent coating on the mucous membrane of the gastro –intestinal tract which prevents irritation or erosion by harmful substances and also adsorb the toxic compounds present in it.

INDICATIONS:

Cases of scours, diarrhea, enteritis, bacillary and amoebic dysentery, hemorrhagic septicaemia (pasteurellosis), coccidiosis, salmonellosis, clostridia in sheep, goats, cattle.

DOSAGE:

Mix well before use.

- **Cattle, Sheep, Goats:**
Initial dose: 30 gm / 50 kg B.wt. orally with water for one day.
Maintenance dose: 15 gm / 50 kg B. wt. orally with water for 2-3 days.
- In severe cases, double the dose.

SAFETY PERIOD:

- For meat consumption: 7 days.
- For milk consumption: 2 days.

REMARK: Not to exceed the treatment period.

STORAGE: Keep in a dry, dark place below 30 °C.

For veterinary use only
