

Fosfin-T

Water Soluble Powder

COMPOSITION: Each Gm contains:

Fosfomycin Calcium	200 mg
Tylosin Tartrate	50 mg

PROPERTIES:

Combines the potent antibacterial actions of fosfomycin and tylosin, offering a broad-spectrum solution effective against gram-positive, gram-negative bacteria, and mycoplasma. This synergistic combination disrupts bacterial cell wall synthesis and inhibits protein synthesis, ensuring fast and effective pathogen elimination.

INDICATIONS:

Treatment of bacterial infections caused by organisms sensitive to fosfomycin and tylosin. Effective against respiratory, digestive, and systemic infections. Indicated for the control and treatment of mycoplasmosis in poultry.

DOSAGE:

220 mg per kg of live body weight via drinking water for 3 to 5 consecutive days, or as directed by a veterinarian. Ensure adequate water intake during treatment.

WITHDRAWAL PERIOD:

- **Meat:** 3 days.
- **Eggs:** Do not use in laying hens.

STORAGE: Keep in dry, dark place below 30°C.

PACKING: (100, 250, 500, 1000) gm.

FOR VET USE ONLY
