

ROSANTEL 10%

Injectable Solution
For Sheep, Goats, Cattle, Camels

COMPOSITION: Each ml contains:

Closantel 100 mg

PROPERTIES:

- A salicylanilide anthelmintic with a wide spectrum activity against several spp. And developmental stages of trematodes (adults and juvenile flukes, nematodes, parasitic larvae of flies and arthropods.
- Has a lasting effect, as it keeps therapeutical levels for long period.
- Due to its prolonged terminal plasma half-life, where the long persistence of activity helps prevent haemonchus infestation of sheep up to (60) days, and enhances efficacy against fascioliasis.
- Well tolerated and safe.
- Has no adverse effect on the reproductive activity (in rams, bulls, ewes) .

INDICATIONS:

- For the treatment and control of different endo and ectoparasites attacking the ruminants.
- Trematodes (Hepatic Distomiasis: Liver flukes (Fasciola Hepatica, F.Gigantica), Paramphistomum .
- Nematodes (Round Worms): Haemonchus, Strongyloids, Oesophagostomum , Bunostomum , Chabertia, Gaigeria, Cooperia, Ostertagia, Capillaria.
- Sheep Nasal Bot Fly (Oestrus Ovis) Larvae.
- Myiasis (Cattle Grubs – Warble -): Hypoderma Bovis, H.Lineatum.
- Myiasis (Tropical Cattle Grubs): Dermatobia Hominis.
- Lice Infestation (Pediculosis):
 - Biting Lice: Damalina
 - Sucking Lice: Linognatus , Haematopinus .
