

BROMEXAN – PLUS

ORAL SOLUTION

COMPOSITION: Each 1 ml contains:

BROMHEXINE HCl	20 MG
EUCALYPTUS OIL	10 MG
CITRUS OIL	10 MG
THYMOL	10 MG
CAMPHOR	10 MG

INDICATIONS:

- Acts as a mucolytic expectorant, which is of value in achieving liquefaction and improving the flow characteristics of mucus.
- The addition of Eucalyptus oil, Citrus oil, Thymol and Camphor produces distinctive effects in alleviation of viral diseases such as Newcastle disease, Avian Influenza, Infectious Bronchitis and Mycoplasmosis (CRD).
- Overcomes post-vaccination reactions.
- Improves the appetite in case of poultry disease.
- Cases of bronchitis and broncho-pneumonia in cattle, sheep, goats and equine.

REMARKS:

- * It is safe when used in combination with anti-bacterials.
- * It can be used in hot weather as a conditioner to decrease the stress in animals, because it acts as a respiratory stimulant improving heat exchange.

DOSAGE & ADMINISTRATION:

- * Poultry: 0.5 ml per 4 liters of drinking water for (3-5) days.
- * Cattle, Sheep and Goat: 1 ml per 40 kg B. wt for (5-7) days.
- * Horses: 0.5-1.25 ml per 100 kg B. wt for (5-7) days.

WITHDRAWAL PERIOD:

Cattle, Sheep and Goat: one day.

Poultry: 8 hours.
